

What You Should Know About Preventing Identity Theft

Identity thieves use many ways to steal personal information, from snooping through mailboxes and trash to posing as legitimate businesses on the phone.

To help guard against ID theft:

- Shred and discard documents containing personal data.
- Never dispose of credit card receipts, rental car receipts or bank deposit slips in public trash receptacles.
- Limit the amount of personal data you print on your checks.
- Don't carry your Social Security Number in your wallet or purse.

Be vigilant and protect your identity because by the time you learn it has been stolen, it may be too late to stop the financial damage.
